They should be a professional person.</p> <p>The references cannot be members of your family or your friends.</p>

Membership to Meet N Match does not guarantee that a match will be found.

This means that you might not have any matches during your membership.

We will do our best to find a match for you but sometimes we cannot find a match.

This is because the type of person you are looking for might not be on our books, or the person might not want to match with you

To increase your chances of a match, we ask that you are open minded about the person or people you might meet

We will always try to offer you a friendship match

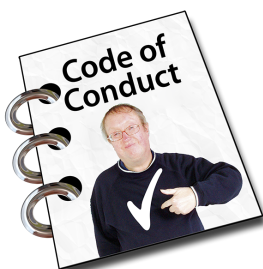

We can stop you from joining if we feel you might be a risk to others.

If this happens, we will explain the reasons why you cannot be a member.

We will do an extra risk assessment if we think members need additional support.

We might say that you have to follow extra rules after doing a risk assessment

We have rules for all of our members. We ask you to stick to these rules.

This is called a code of conduct - a copy will be sent to you once you have joined.

If you break the rules, we will remind you of them and ask you

	<p>not to do this again.</p> <p>If you break the rules 3 times, we will stop your membership</p>
	<p>If there is an incident during your membership that is a criminal offense, your membership will end immediately.</p> <p>We may have to call the police and may need to contact the safeguarding team</p>
 	<p>If you start a relationship during your membership, you should tell us.</p> <p>This is because we cannot match people that are in relationships</p> <p>We can still match you for friendships if you are in a relationship</p>
